

Bencholene

Written By: Preston Moeller

TOOLS:

- [Drill \(1\)](#)
- [Hack saw \(1\)](#)

PARTS:

- [16 bolts \(1\)](#)

Step 1 — Bencholene

- How to turn a broken trampoline into a new piece of furniture.

Step 2

- Cut the trampoline frame into 14 pieces (don't cut the two base pieces so you will be able to slide the other pipes over them).

Step 3

- Cut the mat (trying to save as much of it as possible).

Step 4

- Bolt the pipes together and sew the mat on to create your very own Bencholene.
